

13. Keith is buying a sandwich and juice. He has a choice of a ham, chicken or cheese sandwich. Keith's drink choices are orange or apple juice.

How many different combinations of sandwiches and juice can Keith buy?

Answer: _____

Show how you got your answer with a list, picture, or diagram.

Would the number of possible combinations change if Keith decides to buy a small ice cream cone for dessert with his sandwich and juice?

Answer: (Yes or No) _____

On the lines below, write a reason for your answer.
