

And Try This One!

EXTENDED RESPONSE

Josh plays a game with marbles. His bag of marbles is shown below.

Part A

Josh picks a marble out of the bag without looking. What is the probability that the marble is white?

Answer: _____

Part B

Suppose the marble Josh picked in part A was white. He puts the marble in his pocket.

Write the color of each marble left in the bag.

Part C

Josh picks a second marble out of the bag. What is the probability that the second marble will be white?

Answer: _____
